## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. The rejections set forth in the non-final Office Action dated 8/11/2003 (paper #18) are hereby incorporated by reference in full.

***Response to Arguments***

3. Applicant's arguments filed 10/20/2003 have been fully considered but they are not persuasive.
  - a. Applicant has not addressed the 112-2nd paragraph rejection set forth in paragraph 2 of the previous Office Action.
  - b. Applicant asserts that Ovshinsky does not teach that the buried line of claim 11 includes a pair of more lightly doped regions around a more heavily doped region; that the Examiner relies on Chang for the teaching of these two more lightly doped regions, both above and below the line; and that the rejection is improper because Chang only teaches a more lightly doped region below the heavily doped region, but does not teach a more lightly doped region disposed above the heavily doped region.

Art Unit: 2815

c. Applicant's reading of Ovshinsky and the basis of the rejections is not fully correct. Ovshinsky not only teaches the buried line (n+ channel or wordline 12), but further teaches that a more lightly n-doped region (14) is formed above this buried channel line. As such, Chang was not relied upon for the further teaching of employing a more lightly doped region above the wordline; rather Chang was relied upon for the teaching of employing an additional, lightly-doped n-region (38) below the heavily-doped N+ region (32). Accordingly, the rejections are still deemed to be proper and are therefor maintained.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
